CAREFOCUS MAKES LIFE EASIER

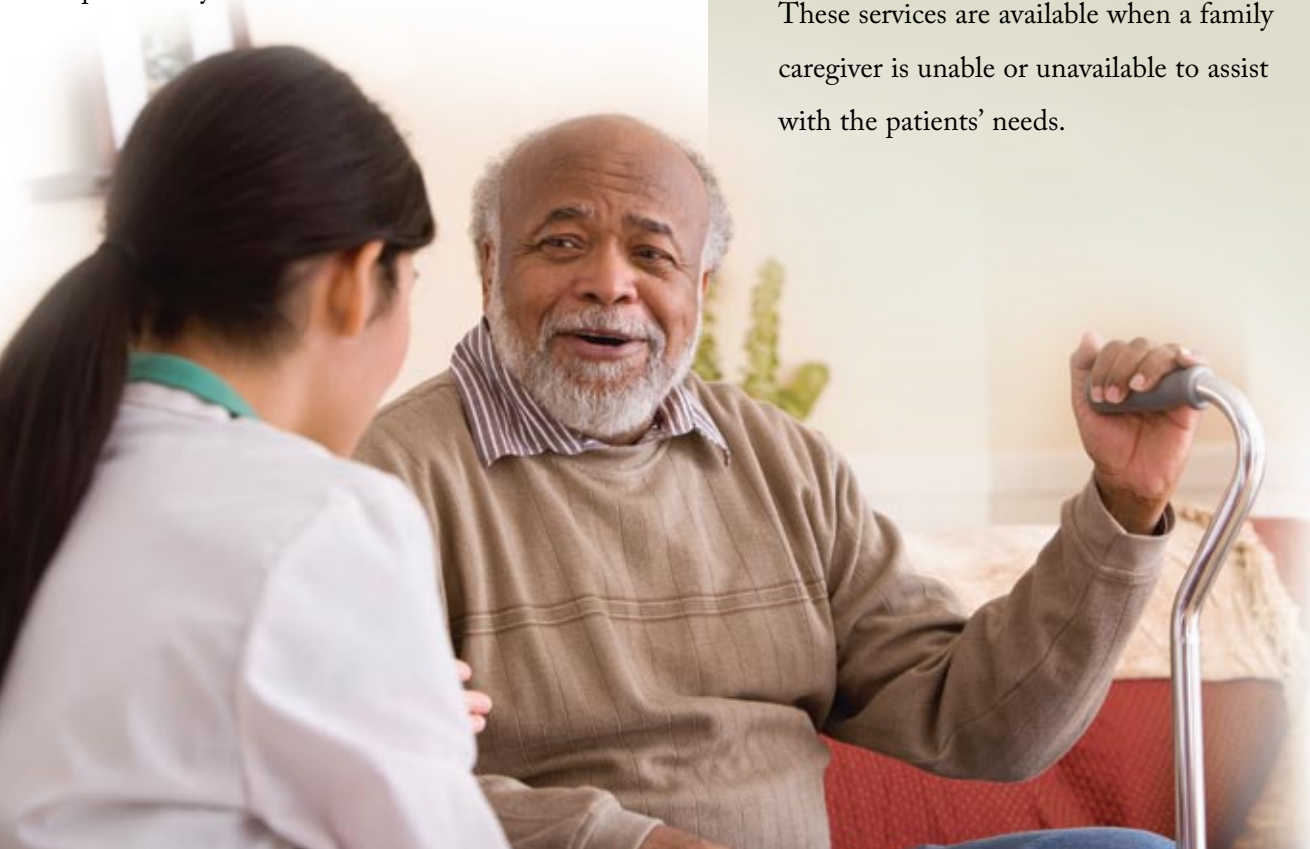

Just as growing older can allow for a more relaxed lifestyle, it can also present new obstacles and challenges. Often times, these obstacles may lead to time in a hospital or medical facility. CareFocus Companion Services can help.

We understand the difficulties that a family faces when a loved one is in the hospital, particularly if that individual needs constant

observation and care. That's why CareFocus offers sitter services. Our professional and trustworthy caregivers are available to sit with you or your loved one in a medical facility for as long as necessary - 24-hours a day, 7 days a week.

CareFocus realizes that care does not always end when a patient leaves a hospital or medical facility. Should the need arise, CareFocus caregivers are available to provide care in the comfort of the patient's home. These services are available when a family caregiver is unable or unavailable to assist with the patients' needs.
